Frontend / UX	Responsive UI, Figma, wireframing, accessibility-minded design
Tools	Git, GitHub, VS Code, Microsoft Office, Excel
Concepts	REST APIs, Agile/Scrum, fintech fundamentals, digital banking, payment flows

PROJECTS

NorthStar CAD Bank - Online Banking Prototype 2026

GitHub: github.com/Prajit-Parmar/northstar-cad-bank

- Built a Canadian online banking prototype using AngularJS, Node.js, HTML, CSS, and JavaScript.
- Created dummy user logins, CAD chequing and savings balances, an active credit card, card offers, E-Transfer send/receive flows, biometric login, help centre, and profile page.
- Designed the prototype to demonstrate fintech product thinking, account clarity, and realistic banking workflows.

WORK EXPERIENCE

Shift Manager Mar 2025 - Present

Pizza Hut - Brantford, Ontario, Canada

- Lead staff during high-volume shifts, coordinating kitchen and front-of-house workflows under pressure.
- Handle order processing, payment reconciliation, and cash balancing with strong transaction accuracy.
- Resolve customer issues and support escalations while maintaining a professional service experience.
- Train and onboard new staff on operational procedures, communication standards, and store workflow.

Crew Member Mar 2024 - Feb 2025

Pizza Hut - Brantford, Ontario, Canada

- Managed real-time customer inquiries in person and by phone while supporting fast-paced restaurant operations.
- Supported payment processing for high-volume transactions across evening and weekend shifts.
- Collaborated with team members to keep orders accurate, timely, and service-focused.

UI/UX Design Intern

2021 - 2023

Alien Software - Anand, Gujarat, India

- Designed and prototyped user interfaces for client projects using modern design tools.
- Collaborated with development teams to translate wireframes into functional and user-friendly interfaces.
- Gained experience in visual design, user research, iteration, and design-to-development handoff.

EDUCATION
